| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                                |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | HSPA5/GRP-78 is an endoplasmic reticulum chaperone that coordinates protein folding and quality control. It cooperates with DNAJC10/ERdj5 to facilitate correct protein folding and participates in the degradation of misfolded proteins, potentially rel... |
| Molecular Weight           | Approximately 33 kDa, based on SDS-PAGE under reducing conditions.                                                                                                                                                                                            |
| Purity                     | 96.00                                                                                                                                                                                                                                                         |
| Formula                    | 3309(Gene_ID)P11021 (E25-E293)(Accession)                                                                                                                                                                                                                     |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
