| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                                |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | The Thy1/CD90 protein is involved in cell-cell or cell-ligand interactions, particularly during key events such as synaptogenesis, which means it plays a role in facilitating communication and connections between cells. Its specific involvement highl... |
| Molecular Weight           | Approximately 45-50 kDa, based on SDS-PAGE under reducing conditions.                                                                                                                                                                                         |
| Purity                     | 96.50                                                                                                                                                                                                                                                         |
| Formula                    | 7070(Gene_ID)P04216 (Q20-C130)(Accession)                                                                                                                                                                                                                     |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
