| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                                |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Nerve Growth Factor Receptor (NGFR) also known as CD271, p75NTR, TNFRSF16, is a transmembrane low-affinity receptor for the neurotrophin family. NGFR has no intrinsic tyrosine kinase activity. NGFR can act as a tumour suppressor, negatively regulatin... |
| Molecular Weight           | 70-80 kDa                                                                                                                                                                                                                                                     |
| Purity                     | 93.60                                                                                                                                                                                                                                                         |
| Formula                    | 18053(Gene_ID)Q9Z0W1 (M1-N243)(Accession)                                                                                                                                                                                                                     |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
