| Manufacturer               | MedchemExpress                                                                                                                             |
| Category                   | Proteine/Peptide                                                                                                                           |
| Product Description        | FBLN1 Protein, Human (HEK293, His, Myc) is the recombinant human-derived FBLN1, expressed by HEK293 , with N-10*His, C-Myc labeled tag.... |
| Molecular Weight           | Approximately 80-100 kDa, due to the glycosylation.                                                                                        |
| Purity                     | 95.00                                                                                                                                      |
| Formula                    | 2192(Gene_ID)P23142-1 (D30-F703)(Accession)                                                                                                |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                     |
