| Manufacturer               | MedchemExpress                                                                                                             |
| Category                   | Biochemikalien                                                                                                             |
| Product Description        | Diethylene glycol bis(p-toluenesulfonate) is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs[1].... |
| Molecular Weight           | 414.49                                                                                                                     |
| Purity                     | 99.97                                                                                                                      |
| CAS Number                 | [7460-82-4]                                                                                                                |
| Formula                    | C18H22O7S2                                                                                                                 |
| Target                     | PROTAC Linkers                                                                                                             |
| Application Notes          | MCE Product type: Reference compound                                                                                       |
