| Manufacturer               | MedchemExpress                                                                                                     |
| Category                   | Biochemikalien                                                                                                     |
| Product Description        | 2-(4-Diethylamino-2-hydroxybenzoyl)benzoicacid is an intermediate in the synthesis of rhodamine derivatives[1].... |
| Molecular Weight           | 313.35                                                                                                             |
| Purity                     | 99.75                                                                                                              |
| CAS Number                 | [5809-23-4]                                                                                                        |
| Formula                    | C18H19NO4                                                                                                          |
| Target                     | Biochemical Assay Reagents                                                                                         |
| Application Notes          | MCE Product type: Reference compound                                                                               |
