| Category                   | Biochemikalien                                                                                                                   |
| Product Description        | Aminoethyl-SS-ethylalcohol is a glutathione cleavable ADC linker used in the synthesis of antibody-drug conjugates (ADCs)[1].... |
| Molecular Weight           | 153.27                                                                                                                           |
| CAS Number                 | [15579-01-8]                                                                                                                     |
| Formula                    | C4H11NOS2                                                                                                                        |
| Target                     | ADC Linker                                                                                                                       |
| Application Notes          | MCE Product type: ADC Related                                                                                                    |
