| Category                   | Biochemikalien                                                                                                                                       |
| Product Description        | SKF1 is a FK506 suppressor, causes a mitochondrially induced death in low salt, concomitant with the release of reactive oxygen species (ROS)[1].... |
| Molecular Weight           | 409.01                                                                                                                                               |
| CAS Number                 | [678997-25-6]                                                                                                                                        |
| Formula                    | C23H37ClN2O2                                                                                                                                         |
| Target                     | FKBP, Reactive Oxygen Species (ROS)                                                                                                                  |
| Application Notes          | MCE Product type: Reference compound                                                                                                                 |
