| Category                   | Biochemikalien                                                                                                                       |
| Product Description        | 3-UMP disodium is a nucleotide, that is a component of ribonucleic acid (RNA) and would be converted to uracil in rat jejunum[1].... |
| Molecular Weight           | 368.14                                                                                                                               |
| Purity                     | 98.92                                                                                                                                |
| CAS Number                 | [35170-03-7]                                                                                                                         |
| Formula                    | C <sub>9</sub> H <sub>11</sub> N <sub>2</sub> Na <sub>2</sub> O <sub>9</sub> P                                                       |
| Target                     | DNA/RNA Synthesis,Endogenous Metabolite                                                                                              |
| Application Notes          | MCE Product type: Reference compound                                                                                                 |
