| Category                   | Biochemikalien                                                                                                                        |
| Product Description        | Betamethasone dipropionate-d5 (Betamethasone 17,21-dipropionate-d5) is deuterium-labeled Betamethasone dipropionate (HY-13571)[1].... |
| Molecular Weight           | 509.62                                                                                                                                |
| Formula                    | C28H32D5FO7                                                                                                                           |
| Target                     | Glucocorticoid Receptor, Isotope-Labeled Compounds                                                                                    |
| Application Notes          | MCE Product type: Isotope-Labeled Compounds                                                                                           |
