| Category                   | Biochemikalien                                                                                                                                                                                                               |
| Product Description        | (R)-TCO-PEG8-NHS ester is an ADC linker containing 8 PEG units. (R)-TCO-PEG8-NHS ester can use its own TCO group to perform an inverse electron demand Diels-Alder reaction (iEDDA) with molecules with Tetrazine groups.... |
| Molecular Weight           | 690.78                                                                                                                                                                                                                       |
| Formula                    | C32H54N2O14                                                                                                                                                                                                                  |
| Target                     | ADC Linker                                                                                                                                                                                                                   |
| Application Notes          | MCE Product type: ADC Related                                                                                                                                                                                                |
