| Category                   | Biochemikalien                                                                                                                                                                                                                                      |
| Product Description        | GID4 Ligand 1 (compound 88) is a cell-permeable and high-selective GID4 binder (IC <sub>50</sub> =5.4 µM, K <sub>d</sub> =5.6 µM), binds to GID4 in cells (EC <sub>50</sub> =558 nM). GID4 Ligand 1 can be used for the synthesis of PROTACs[1].... |
