| Product Description        | 5-Methyl-2-thio-xylo-uridine is a purine nucleoside analog. Purine nucleoside analogs have broad antitumor activity targeting indolent lymphoid malignancies. Anticancer mechanisms in this process rely on inhibition of DNA synthesis, induction of apopto... |
| Molecular Weight           | 274.29                                                                                                                                                                                                                                                          |
