| Product Description        | 3-Amino-3-deoxycytidine is a purine nucleoside analogue. Purine nucleoside analogs have broad antitumor activity targeting indolent lymphoid malignancies. Anticancer mechanisms in this process rely on inhibition of DNA synthesis, induction of apoptos... |
| Molecular Weight           | 242.23                                                                                                                                                                                                                                                        |
| CAS Number                 | [70580-89-1]                                                                                                                                                                                                                                                  |
