| Product Description        | N6-Benzoyl-5-O-(4,4-dimethoxytrityl)-3-O-(2-methoxyethyl)adenosine is a purine nucleoside analog. Purine nucleoside analogs have broad antitumor activity targeting indolent lymphoid malignancies. Anticancer mechanisms in this process rely on inhibiti... |
| Molecular Weight           | 731.79                                                                                                                                                                                                                                                        |
