| Product Description        | M5 glycan (Man5) (Mannose-5 N-linked oligosaccharide, Oligomannose 5 glycan) is a N-polysaccharide protein and a multifunctional fluorescent linker. The resulting conjugates exhibit high sensitivity and specificity by mimicking the antennal elements ... |
| Target                     | Biochemical Assay Reagents                                                                                                                                                                                                                                    |
| Application Notes          | MCE Product type: Biochemical Assay Reagents                                                                                                                                                                                                                  |
