| Category                   | Biochemikalien                                                                                                                          |
| Product Description        | Pomalidomide-N-Glutarylglutamine is a E3 ligase ligand-linker conjugate that can be used in the synthesis of PROTACT (HY-168540)[1].... |
| Molecular Weight           | 444.39                                                                                                                                  |
| Formula                    | C <sub>20</sub> H <sub>20</sub> N <sub>4</sub> O <sub>8</sub>                                                                           |
| Target                     | E3 Ligase Ligand-Linker Conjugates                                                                                                      |
| Application Notes          | MCE Product type: Reference compound                                                                                                    |
