| Alternative Catalog Number | MCE-HY-P1781A-1UNIT                                                                                                                                                                                          |
| Manufacturer               | MedchemExpress                                                                                                                                                                                               |
| Category                   | Proteine/Peptide                                                                                                                                                                                             |
| Product Description        | Peptide C105Y TFA, a synthetic and cell-penetrating peptide based on the amino acid sequence corresponding to residues 359-374 of alpha1-antitrypsin, enhances gene expression from DNA nanoparticles[1].... |
| Molecular Weight           | 1994.40 (free acid)                                                                                                                                                                                          |
| Formula                    | C97H148N20O23S.xC2HF3O2                                                                                                                                                                                      |
| Target                     | Secretin Receptor                                                                                                                                                                                            |
| Application Notes          | MCE Product type: Peptides                                                                                                                                                                                   |
