| Product Description        | NA/Neuraminidase Protein is a receptor-destroying enzyme that cleaves terminal sialic acids from cellular receptors, potentially facilitating viral invasion of the upper airways by targeting sialic acid moieties on airway epithelial cell mucin. NA pl... |
| Molecular Weight           | Approximately 56.5 kDa, based on SDS-PAGE under reducing conditions.                                                                                                                                                                                          |
| Formula                    | /(Gene_ID)AVG71505 (I30-I469)(Accession)                                                                                                                                                                                                                      |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
