| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | CD30/TNFRSF8 protein (TNFSF8/CD30L receptor) is a key factor regulating cell growth and lymphoblast transformation and may activate NF-kappa-B signaling. CD30/TNFRSF8 Protein, Human (HEK293, hFc) is the recombinant human-derived CD30/TNFRSF8 protein,... |
| Molecular Weight           | Approximately 65.2 kDa                                                                                                                                                                                                                                        |
| Formula                    | 943(Gene_ID)P28908 (F19-K379)(Accession)                                                                                                                                                                                                                      |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
