| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | The EDA2R/XEDAR proteins lack conserved residues critical for feature annotation propagation and exhibit unique characteristics that raise questions about their structural and functional aspects. This uniqueness suggests potential changes in molecula... |
| Molecular Weight           | Approximately 51 kDa,based on SDS-PAGE under reducing conditions.                                                                                                                                                                                             |
| Formula                    | 296872(Gene_ID)A0A096MJP5 (M2-E137)(Accession)                                                                                                                                                                                                                |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
