| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                              |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                            |
| Product Description        | The OXR1 protein is a key serine/threonine protein kinase in the WNK-SPAK/OSR1 cascade, regulating ion transport, hyperosmotic stress response, and blood pressure. Downstream of WNK kinase, OXR1 phosphorylates ion cotransporters such as SLC12A1/NKC... |
| Molecular Weight           | Approximately 80 kDa,based on SDS-PAGE under reducing conditions.                                                                                                                                                                                           |
| Formula                    | 9943(Gene_ID)O95747 (M1-S527)(Accession)                                                                                                                                                                                                                    |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                      |
