| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                                |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | CD64 protein, a high affinity receptor, mediates IgG effector functions, triggering antibody-dependent cellular cytotoxicity (ADCC). It interacts with IGHG1 and forms a signaling complex with FCERG1, contributing to immune responses. CD64 also intera... |
| Molecular Weight           | Approximately 50-70 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
| Formula                    | 2209(Gene_ID)P12314-1 (Q16-P288)(Accession)                                                                                                                                                                                                                   |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
