| Category                   | Molekularbiologie                                                                                                                                                                                                                                                 |
| Product Description        | GJB2 Human Pre-designed siRNA Set A contains three designed siRNAs for GJB2 gene (Human), as well as a negative control, a positive control, and a FAM-labeled negative control. Components GJB2 siRNA-1: 5 nmol (HPLC) GJB2 siRNA-2: 5 nmol (HPLC) GJB2 siRNA... |
| Target                     | Small Interfering RNA (siRNA)                                                                                                                                                                                                                                     |
| Application Notes          | MCE Product type: Oligonucleotides                                                                                                                                                                                                                                |
