| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Molecular Characterization: ANXA1(Ala2-Asn346)6A-His tagMolecular weight: The protein has a predicted molecular mass of 39.4 kDa after removal of the signal peptide. The apparent molecular mass of ANXA1-His is approximately 35-40 kDa due to glycosyla... |
| UniProt                    | <a href="#">P04083</a>                                                                                                                                                                                                                                        |
