| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Source : The E.coli derived Biotin Labeled recombinant protein contains the HCV NS5 immunodominant regions. HCV NS5 antigen (recombinant) a.a 2061 to a.a 2302 of HCV polyprotein. The protein is fused to a GST tag at N-terminus. HCV is a small 50nm, e... |
| Purity                     | HCV NS5 Biotin protein is >95% pure as determined by 10% PAGE (coomassie staining).                                                                                                                                                                           |
