| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Product Description        | This kit was based on sandwich enzyme-linked immune-sorbent assay technology. Anti- Human IL-18 antibody was pre-coated into 96-well plates. Biotin conjugated anti-human IL-18 detection antibody was used. Standards, test samples and biotin conjugated... |
| Application Dilute         | This immunoassay kit allows for the in vitro quantitative determination of Human IL-18 concentrations in serum, plasma and other biological fluids. Detection Range: 15.6 - 1000 pg/ml<br>Sensitivity: < 9.4 pg/ml                                            |
