| Immunogen                  | Recombinant Mouse IL-6 protein                                                                                                                                                                                                                                |
| Product Description        | IL-6 is a potent lymphoid cell growth factor that stimulates the growth and survivability of certain B-cells and T-cells. IL-6 plays a role in host defense, acute phase reactions, immune responses, and hematopoiesis. IL-6 is expressed by T-cells, B-c... |
