| Host                       | E. coli                                                                                                  |
| Category                   | Proteine/Peptide                                                                                         |
| Application                | SDS-PAGE, WB                                                                                             |
| Conjugation                | Unconjugated                                                                                             |
| Concentration              | Prior to lyophilization: 200 µg/ml                                                                       |
| Buffer                     | Prior to lyophilization: PBS, pH 7.4, containing 0.01% Sarcosyl, 1 mM DTT, 5% Trehalose and Proclin-300. |
| Expression System          | Recombinant                                                                                              |
| Purity                     | > 90%                                                                                                    |
| Form                       | Lyophilized                                                                                              |
| Target                     | Betacellulin (bTC)                                                                                       |
