| Species Reactivity         | Porcine                                                                                                                                                                                                                                                       |
| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Porcine IL-10. Standards or samples are added to the micro ELISA plate wells and combined with the specific ... |
| Range                      | 15.6-1000pg/mL                                                                                                                                                                                                                                                |
| Sensitivity                | 6.5pg/mL                                                                                                                                                                                                                                                      |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | IL-10                                                                                                                                                                                                                                                         |
