| Category                   | Kits/Assays                                                                                                     |
| Application                | ELISA                                                                                                           |
| Species Reactivity         | Mouse                                                                                                           |
| Range                      | 6.25-400 ng/mL                                                                                                  |
| Samples                    | Serum, plasma                                                                                                   |
| Target                     | IgA                                                                                                             |
| Application Notes          | This ELISA kit applies to the in vitro quantitative determination of Mouse IgA concentrations in serum, plasma. |
