| Category                   | Kits/Assays                                                                                                       |
| Application                | ELISA                                                                                                             |
| Species Reactivity         | Mouse                                                                                                             |
| Range                      | 0.16-10 ng/mL                                                                                                     |
| UniProt                    | <a href="#">Q5QNS5</a>                                                                                            |
| Samples                    | Serum, plasma                                                                                                     |
| Target                     | KIM-1                                                                                                             |
| Application Notes          | This ELISA kit applies to the in vitro quantitative determination of Mouse KIM-1 concentrations in serum, plasma. |
