| UniProt                    | <a href="#">P14324</a>                                                                                                                                                                                              |
| Expression System          | E.coli                                                                                                                                                                                                              |
| Purity                     | > 85 % as determined by reducing SDS-PAGE.                                                                                                                                                                          |
| Form                       | Lyophilized from sterile PBS, pH 7.5 Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequence                   | Met 1-Lys 353                                                                                                                                                                                                       |
