| Host                       | Rabbit                                                                                                                                                                                                                                              |
| Category                   | Antikörper                                                                                                                                                                                                                                          |
| Concentration              | 1mg/ml                                                                                                                                                                                                                                              |
| Purity                     | Affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site. |
| Form                       | Phosphate buffered saline (without Mg <sup>2+</sup> and Ca <sup>2+</sup> ), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                                                                                |
