| Manufacturer               | MyBiosource                                                                                                                                                                                                        |
| Host                       | Human                                                                                                                                                                                                              |
| Category                   | Proteine/Peptide                                                                                                                                                                                                   |
| Purity                     | >95% as determined by SDS-PAGE                                                                                                                                                                                     |
| Form                       | Lyophilized from sterile PBS, pH7.4. Normally 5%-8% trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization. Please refer to the specific buffer information in the hard copy of CoA. |
