| Manufacturer               | MyBiosource                                                                                                        |
| Host                       | Rabbit                                                                                                             |
| Category                   | Antikörper                                                                                                         |
| Clonality                  | Polyclonal                                                                                                         |
| Concentration              | 3.0mg/mL                                                                                                           |
| Purity                     | Ferritin antibody was purified by Protein A Chromatography                                                         |
| Form                       | Protein A purified in 10 mM PO <sub>4</sub> , 150 mM NaCl, pH 7.4 with 1% BSA, 0.05% sodium azide as preservative. |
