| Alternative Catalog Number | ABC-A332986-50                                                                                                                       |
| Manufacturer               | Antibodies.com                                                                                                                       |
| Category                   | Proteine/Peptide                                                                                                                     |
| Application                | SDS-PAGE                                                                                                                             |
| Conjugation                | Unconjugated                                                                                                                         |
| Concentration              | Reconstitution dependent.                                                                                                            |
| Molecular Weight           | 35-70 kDa due to glycosylation.                                                                                                      |
| Tag                        | C-terminal Human Fc Tag                                                                                                              |
| Buffer                     | Lyophilized from sterile Phosphate Buffered Saline, pH 7.4. Normally 5%-8% Trehalose is added as a protectant before lyophilization. |
| Expression System          | HEK293 cells                                                                                                                         |
| Purity                     | >95% as determined by SDS-PAGE and Coomassie blue staining.                                                                          |
| Form                       | Lyophilized                                                                                                                          |
| Sequence                   | AILGRSETQECLFFNANWERDRTNQTGVEPCYGDKDKRRHCFATWKNISGSI<br>EIVKQGCWLDDINCYDRTDCIEKKDSPEVYFCCCEGNMCNEKFSYFPEMEVT<br>QPTSNPVTPKPP         |
