| Alternative Catalog Number | NBS-ABB-BDOBQP-100                                                                                                 |
| Manufacturer               | Nordic BioSite                                                                                                     |
| Host                       | Mouse                                                                                                              |
| Category                   | Antikörper                                                                                                         |
| Application                | WB                                                                                                                 |
| Species Reactivity         | Human                                                                                                              |
| Immunogen                  | E.coli-derived human Cyclin E1/CCNE1 recombinant protein (Position: R3-A386).                                      |
| Conjugation                | APC                                                                                                                |
| Product Description        | Anti-Cyclin E1/CCNE1 Antibody (monoclonal, 8B9C3) . Tested in WB applications. This antibody reacts with Human.... |
| Clonality                  | Monoclonal                                                                                                         |
| Concentration              | 500 ug/ml                                                                                                          |
| Clone Designation          | [8B9C3]                                                                                                            |
| Isotype                    | IgG2b                                                                                                              |
| Sensitivity                | >5000 cells                                                                                                        |

|               |                        |
