| Product Description        | Boster Bio Anti-SARS-CoV-2 NSP9 Antibody catalog A30395. Tested in ELISA applications. This antibody reacts with Human.... |
| Clonality                  | Polyclonal                                                                                                                 |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                  |
| Molecular Weight           | Calculated Molecular Weight: 16693 MW                                                                                      |
| NCBI                       | <a href="#">43740578</a>                                                                                                   |

|                    |                                                                                                              |
|--------------------|--------------------------------------------------------------------------------------------------------------|
| UniProt            | <a href="#">P0DTC1</a>                                                                                       |
| Buffer             | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% NaN <sub>3</sub> . |
| Purity             | Immunogen affinity purified.                                                                                 |
| Form               | Liquid                                                                                                       |
| Target             | Synapsin-1                                                                                                   |
| Application Dilute | Western blot, 0.25-0.5µg/ml Immunohistochemistry (Paraffin-embedded Section), 2-5µg/ml ELISA, 0.1-0.5µg/ml   |
