| Category                   | Biochemikalien                                                                                                                                                                                                                                                  |
| Product Description        | Fibronectin type III domain-containing protein 5 is the precursor of irisin. Mature human, mouse share 100% sequence identity. Irisin induces expression of peroxisome proliferator-activated receptor gamma coactivator 1alpha (PGC1alpha) and uncoupling p... |
| Purity                     | >95%, Endotoxin < 1 EU/μg                                                                                                                                                                                                                                       |
| CAS Number                 | []                                                                                                                                                                                                                                                              |
| Target                     | Cytokines and Growth Factors                                                                                                                                                                                                                                    |
