| Category                   | Proteine/Peptide                                                                                                                                                                                                                                 |
| Immunogen                  | Recombinant Human NKG2D ligand 1/ULBP1 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gly26-Pro215) of human ULBP1 (Accession NP_079494.1) fused with a 6*His, Avi tag at the C-terminus. |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                     |
| Product Description        | Human NKG2D ligand 1/ULBP1 protein (Recombinant) (C-His&Avi)...                                                                                                                                                                                  |
