| Manufacturer               | Nordic BioSite                                                                                                                                                                                        |
| Category                   | Proteine/Peptide                                                                                                                                                                                      |
| Immunogen                  | DNA sequence encoding Human ACE2/ACEH including a C-hFc-Avi tag was expressed in HEK293 Cells. The recombinant protein was then biotinylated site specific using the AVItag biotinylation technology. |
| Conjugation                | Biotin                                                                                                                                                                                                |
| Product Description        | Human ACE2/ACEH protein (Recombinant) (C-hFc-Avi) {Biotin}...                                                                                                                                         |
