| Category                   | Proteine/Peptide                                                                                                                                                                                                                       |
| Immunogen                  | Recombinant Human NKG2D ligand 2/ULBP2 Protein is produced by HEK293 expression system. The target protein is expressed with sequence (Gly26-Ser217) of human ULBP-2 (Accession NP_079493.1) fused with a 6*His tag at the C-terminus. |
| Conjugation                | Unconjugated                                                                                                                                                                                                                           |
| Product Description        | Human NKG2D ligand 2/ULBP2 protein (Recombinant) (C-His)...                                                                                                                                                                            |
