| Host                       | Human                                                                                                   |
| Category                   | Antikörper                                                                                              |
| Application                | ELISA, WB                                                                                               |
| Species Reactivity         | Virus                                                                                                   |
| Immunogen                  | Fully humanized monoclonal antibody paired with human monoclonal antibody, corresponding to COV-19 SPN. |
| Product Description        | SPN monoclonal antibody...                                                                              |
| Buffer                     | 1mg/ml in PBS with 0.02% sodium azide,pH7.2                                                             |
| Purity                     | The antibody was purified from 293f recombinant protein and the purity is > 95% (by SDS-PAGE).          |
