| Category                   | Proteine/Peptide                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant Mouse Angiotensinogen/AGT Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gly29-Val482) of mouse Angiotensinogen/AGT (Accession NP_031454.3) fused with a 6*His tag at the C-terminus. |
| Product Description        | Mouse Angiotensinogen/AGT protein (Recombinant) (C-His)...                                                                                                                                                                                               |
