## Product Datasheet

**Recombinant Rhodopseudomonas palustris Acetyl-coenzyme A  
carboxylase carboxyl transferase subunit beta(accD),Escherichia Coli  
Preis auf Anfrage  
CSB-EP635382RAAK**

|                            |                                                                                                                                                       |

| Application Notes | <p>We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.</p> |
