| Product Description        | The GENLISA Human Squamous Cell Carcinoma Antigen 1 (SCCA1) ELISA includes features like: Ready to use protocol with break-apart wells for ease of use Standardisation and High Reproducibility Lot to Lot Consistency Accuracy and Precision Validated ag... |
| Range                      | 78.13 - 5000 pg/ml                                                                                                                                                                                                                                            |
| Sensitivity                | 39 pg/ml                                                                                                                                                                                                                                                      |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. For tear samples, please connect with us to discuss further.                                                                                            |
| Application Notes          | Colorimetric, Absorbance measured at 450nm                                                                                                                                                                                                                    |
