| Immunogen                  | Recombinant human LMO2 protein fragment (around aa 23-140) (exact sequence is proprietary)                                                                                                                                                                    |
| Conjugation                | CF 740                                                                                                                                                                                                                                                        |
| Product Description        | The LMO2 protein has a central and crucial role in hematopoietic development and is highly conserved. It has a particular function in normal and lymphatic endothelial cells involving the regulation of angiogenesis and lymph-angiogenesis. Immunohistoc... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
