| Manufacturer               | MedchemExpress                                                                                                             |
| Category                   | Biochemikalien                                                                                                             |
| Product Description        | tert-Butyl 7-bromoheptanoate is a PROTAC linker can be used in the synthesis of PROTACs, such as MCB-36 (HY-176786)[1].... |
| Molecular Weight           | 265.19                                                                                                                     |
| Purity                     | 97.95                                                                                                                      |
| CAS Number                 | [51100-47-1]                                                                                                               |
| Formula                    | C11H21BrO2                                                                                                                 |
| Target                     | PROTAC Linkers                                                                                                             |
| Application Notes          | MCE Product type: Reference compound                                                                                       |
