| Manufacturer               | MedchemExpress                                                                                                                                                                                                |
| Category                   | Biochemikalien                                                                                                                                                                                                |
| Product Description        | Xanthosine-5-Triphosphate (5-XTP) lithium, a nucleotide, is produced by deamination of purine bases. Xanthosine-5-Triphosphate lithium is a substrate of inosine triphosphate pyrophosphatase (ITPase)[1].... |
| Molecular Weight           | 547.90                                                                                                                                                                                                        |
| CAS Number                 | [3056945-74-2]                                                                                                                                                                                                |
| Formula                    | C10H11Li4N4O15P3                                                                                                                                                                                              |
| Target                     | DNA/RNA Synthesis,Nucleoside Antimetabolite/Analog,Phosphatase                                                                                                                                                |
| Application Notes          | MCE Product type: Oligonucleotides                                                                                                                                                                            |
